

Bacteria & Virus Killer !!

UV-C LED Sterilization Tumble (ET-30)

Onsale

UV-C LED quickly destroys the DNA of the food poisoning bacterium and Virus(COVID-19 etc.)
Compared to UV mercury lamp, it is safe without mercury, long life, fast operation.

- Designed & Developed in Korea
- Made in China

Concept

Strong sterilization power and odor removal using inside reflector

Water resistance / Keeping Warm and Cold

The material harmless to human (Ecozen, Stainless steel 304)

Power off when the lid is flipped for human safety

Config.

Tumbler

Stainless Tumbler Body
Lid(Cap) with UV-C LED
Touch bottom
Circular magnetic power port
Urethane protective cover (various colors)

USB Cable

Circular Magnetic USB power Cable

Spec.

(Note : www.emtake.com)

UV-C LED	UV-C LED wave 278nm
Battery	Rechargeable Li-Po
Input power	DC-5V
Cable	Circular Magnetic USB power Cable
Power Consumption	1.48 Wh
Material	Ecozen, Stainless 304
Size	420mL, 15oz, φ85 x 195
Weight	350g
Certification	KC(Korea), CE(Europe), FCC (USA)
Sterilization test result	99.9 % (KATR in Korea)

Caution • It may differ from brochure contents and actual product.
